### DETAILED ACTION

The following action is in response to the amendment filed for application 10/784,641 on September 27, 2005.

#### *Election/Restrictions*

Claims 2, 8, 10, 13, and 18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 27, 2005.

Claims 1, and 12 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 2, 8, 10, 13, and 18 directed to the species of other transmission configurations are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

*Allowable Subject Matter*

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the multi-speed transmission as claimed, and particularly including a second torque-transmitting mechanism selectively interconnecting said first member of said first planetary gear set (ring gear) with said third member of said third planetary gear set (sun gear), and including the remaining structure of claim 1 (12 and 20).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kasuya, Kato, Stevenson, Hayabuchi '880 and '018 have been cited to show similar transmission configurations.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.
